A WARM WELCOME TO MAINAU FLOWER ISLAND

We invite you at Mainau to enjoy the gardens and nature, because Mainau offers you both fascinating insights and marvellous views and our aim is to surprise you afresh each time you visit Mainau Island. Forget about the hectic pace of everyday life as you take a stroll around our island. Enjoy the abundance of blossoms, changing in accordance with the seasons, with thousands of tulips, hundreds of rhododendrons, scented roses, perennial shrubs and colourful dahlias.

Linger around the more than 150 years old arboretum with its majestic sequoia trees. Our father Lennart Count Bernadotte was the son of Prince William of Sweden and of Maria Pawlowna, Grand Duchess of Russia. He further developed the former palace park of his great-grandfather, Grand Duke Friedrich I of Baden, making it a paradise of flowers and plants and opening it to the public.

Today, we are the fifth generation of our family to guide the island's destiny and we hope to continually inspire afresh an enjoyment of nature in our visitors from all over the world. In these busy times, we bid you a warm welcome to Mainau Island so that we can give you the opportunity to pause for a moment and to enjoy a bit of relaxation

CASTLE JEWEL & GARDEN EUPHORIA THE MAINAU FLOWER YEAR 2022

Two anniversaries that are a result of going far back in time of the history of Mainau Island are in the center of the two upcoming flower years 2022/2023. Back in the year 1746 architect Johann Caspar Bagnato handed the completed Mainau castle over to the lords of castle of the German order. Instead of a medieval castle, one of the highlights of Baroque in the south-west of Germany was built.

Due to the covid-19-pandemic the 275 year castle anniversary delayed and is being celebrated now. The German order also plays an essential role for the second anniversary that takes place on Mainau Island this year. The German order commandery Mainau has been founded 750 years ago.

Over the intervening centuries Mainau Island developed to one of the most affluent settlements of the order-province Elsass-Burgund.

Such as Mainau castle, the church St. Marien and the Comtury-tower at the harbour are, amongst others, contemporary witnesses of the German order. The motto „Castle jewel & garden euphoria“ unites the spirited story of the island with enthusiastic garden delight and reflects itself in the two upcoming years in creative plantings and installations in parc and garden. The Mainau-chefs are on a historic search for clues as well and pamper their guests with abundant and seasonal dishes.
